

brightlanguage

Online language assessment tests

A Bright tomorrow...
since 1990

- Market leader amongst French companies with more than 250,000 tests a year.
- A presence in 80 countries.
- 11 languages tested and 14 interface languages.

Bright Language provides a Human Resources tool that is simple and reliable for rapidly and effectively assessing the language level of your co-workers. This allows:

- The creation and personalisation of Internet platforms suitable for your organisation.
- The administrators can assign tests with their access codes at any time.
- Immediate results.
- Access to overall company statistics.

Many multinational corporations such as Total, BNP Paribas, Safran, Manpower, Valéo and Solvay have chosen to work with Bright for recruitment and training. They are highly satisfied with the performance of the platform and the test results.
